Our History:
In 1938, a one-roomed wooden school named for Saint Cuthbert was built in Lindisfarne, under the auspices of the Presentation Sisters. It opened with an enrolment of 32 pupils with Sister M Genevieve as the first Principal. Sophie Triffett, Francis and Patricia Cockerill and June and Denis Cox were the first entries in the Student Enrolment Register. The building served as a School during the week and as a Church at the weekend. This remained the case until 1967 when the Church of the Incarnation was built.

For the first 18 years (until 1956), the Sisters travelled to and from Lindisfarne each day – at first from St Mary’s Convent in Hobart and later from Bellerive. An eight-roomed house was purchased at 43 Malunna Road in 1957 where Sister M Leo and Sister M Michael took up residence. In 1960 the Sisters moved into a new convent at 30 Corinna Road overlooking the school.

Although the first school had been added to, in 1961 a separate brick building comprising 2 classrooms was completed, followed in later years by 5 more classrooms, an art and craft room, Principal’s Office, staff room and new toilet block.

In 1975 a large hall, two smaller rooms and a canteen were built in the school grounds and have been used over the years by the Parish, the School and local community groups. Some years later a kitchen was added to the Hall area.

During 1984 additions including a new staff room, Principal’s Office, Secretary’s Office, classroom and library were built. Sadly at this time, the original building known as ‘The Green Building’ was demolished due to its poor condition and to provide additional playground space.

The convent and another house adjoining the school property were purchased by the Board of Management of St Cuthbert’s to add to the School’s classroom and playground area.

Other improvements and additions in more recent times have included the establishment of Kindergarten in 2002 and from 2007 ‘Before and After School Care’.

Over the years, new play equipment on both top and bottom levels have been built. These have replaced the old pine structures that were installed by the P&F Committee at working bees. These have included the shade-sails and the soft recycled rubber surface. In 2008 the deck was built on Corinna Road to establish a dedicated drop-off and pick-up zone.

2010 – 2011 saw a substantial building programme undertaken as part of the Labor Government’s ‘Building the Education Revolution’ (BER). The existing seven classrooms were refurbished and two dedicated Early Years’ classrooms were built. This funding also allowed for the School’s grounds to be re-developed and landscaped.

In 1968, St Cuthbert’s had an enrolment of 195 pupils and a staff of 5 teachers: Sister M Francis (Sister in Charge) Sister Maria Goretti, Sister M Gerard, Mrs Melba Kirkham and Mrs Jan Thomas.

In 2013 at our 75th Anniversary, there were 9 classes with a total enrolment of 254 students and a staff of 28, some of whom work part time.

From its first intake of pupils in 1938 until today St Cuthbert’s has provided a quality Catholic education for thousands of children on Hobart’s Eastern Shore. We are indebted to the dedication and service of the Presentation Sisters and to the many teachers and staff who have taught and worked at St Cuthbert’s during this time. They have all followed in the footsteps of Nano Nagle and have answered her call to...

‘Take care of my schools.’

KINDERGARTEN
The activities and experiences provided by the Kindergarten are designed to help children in a variety of ways. Primarily we are there to foster their feelings of self worth, to support and extend their innate disposition to learn and to actively promote the development of various skills, attitudes and values.

The children will be involved in many first hand experiences to enrich their learning. Children learn in various ways – they may be visual, auditory or kinaesthetic learners and there must be a balance of different ways of teaching/facilitating in order for children to learn best. Generally we engage children in learning that is child referenced – that is, provide a curriculum that is relevant and of interest to the children. We place a great deal of emphasis on learning through Senses as this is how young children come to know their world and through “Play” – informal and structured. As the famous Swiss psychologist, Jean Piaget once said “Play is the child’s work”. Through play children learn about the world and their place in it. They are able to explore, develop, rehearse and understand. Make believe play is particularly helpful with learning to come to terms with certain emotions and to work through problems.

In the Kindergarten programme we provide a balance of large group, small group and individual learning opportunities with an emphasis on indoor and outdoor learning experiences.

CHILDREN LEARN BEST WHEN

- They feel confident because of previous experiences of success.
- They are expected to learn.
- Their natural curiosity is aroused.
- They are active and involved – discovering, solving problems, explaining what they are doing ……..
- They feel safe.
- They are challenged.
- They are mature enough to master the task.
- The task is interesting and makes sense.
- They have the opportunity to observe and imitate others.
- They have plenty of chances to practise.
Conscientious parents are always looking for ways of helping their children do well at school. Here are a few hints that can be guaranteed to get results.

1. Help the children feel good about themselves and about learning. Encourage every effort. Try to praise rather than blame.

2. Read to them every day from the earliest age. There is no better way to create a desire to read.

3. Give presents of simply-written and well-illustrated books on a whole range of topics – both fiction and non fiction.

4. Encourage the children to write regularly in a variety of ways – letters, diaries, factual accounts, imaginative stories, bank or post office forms, journals, labelling, etc.

5. Try to cultivate a sense of number, size, length, height, width, volume, area, weight and time in everyday life. Join with them in estimating, counting, calculating and so on.

6. Take time to discuss every day happenings. Encourage questions and show how answers can be found.

7. Regularly give them one of the most precious gifts you can – your time.
CHILDREN LEARN WHAT THEY LIVE

Dorothy Law Nolte

If a child lives with criticism he learns to condemn.
If a child lives with hostility, he learns to fight.
If a child lives with fear, he learns to be apprehensive.
If a child lives with pity, he learns to feel sorry for himself.
If a child lives with ridicule, he learns to be shy.
If a child lives with jealousy, he learns what envy is.
If a child lives with shame, he learns to feel guilty.
If a child lives with encouragement, he learns to be confident.
If a child lives with tolerance, he learns to be patient.
If a child lives with praise, he learns to be appreciative.
If a child lives with acceptance, he learns to love.
If a child lives with approval, he learns to like himself.
If a child lives with recognition, he learns that it is good to have a goal.
If a child lives with honesty and fairness, he learns what truth and justice are.
If a child lives with security, he learns to have faith in himself and in those about him.
If a child lives with friendliness, he learns that the world is a nice place in which to live.
If you live with serenity, your child will have peace of mind.

With what is your child living?
